## MAKING LAND VALUES

The character of cross more secondly directs the character of the product around and every community necessarily directs the character of the product around to term its the farmer. There must be a market for the farmer. There must be some place where the can residue to the scope and receive in exchange a fair value in money as account of the loss at so many the field will be given a their ough in such merchandise as will supply the messariles of those dependent on his of the friends and relatives of test efforts—to say nothing of the luxuries that have become practically me the family in the European war.

RESERVED THE in such merchandine as will supply the measurables of those dependent on his orders are the new particle of the friends and relatives of in such merchandine as will supply the measurables of those dependent on his constitue.

The day has gone by when the farmer and his family raised and produced by home manufacture all the things needed. We have become creatures of the bride was dreamed in a by home manufacture all the things needed. We have become creatures of the bride gown trimmed with someopin worn by our forefathers. We must have planes and organs, upholestered furnitions, chinasance ecockies; toware, administration utenate, self-the homeopin worn by our forefathers. We must have planes and organs, or finder one which hiese them, they are entitled to have and to wer.

Our say is no lengue a period of appreciation of heavity unadorated or a discount of the demand for much things we have established community for the good things of the Wa need or we think we need which is the name thing, a lot of things which cannot be produced on the farm.

In anywer to the demand for much things we have established community for sulfers about much we need the sulfers of the exchange of the term produce for allows the content and for merchandler. Now that we have established a standard of values for exceptibility we figure everything a continual that which we have in a stirchester who earlies a stock of the things we require into their normal places and early and if we are dealling with a stirchester who earlies a stock of the things we require into their other about making the deal.

In our community we have anothered their money to the circus with or exceptibing or a stock that which we have in self, there is not believe to this the sum of the community. It is not continually all the continual the result of the community and the required for the required for the required state of the community of the continual the continual that the furners. The marketing of the community is the state that the product of the continual tof
